COVID-19 State Resources

State Resources

SAF is working hard to provide you with the most up-to-date information on how your state is handling Covid19-related issues such as unemployment, aid, small business assistance, and essential business guidelines. In the event that you are unable to locate the resources you need under your listed state (below), SAF suggests you visit your state government page for further information. Your government page can be found by [yourstatedname.gov](http://yourstatedname.gov) or [yourstateabbreviation.gov](http://yourstateabbreviation.gov). Most pages have a dedicated link for COVID19 where these resources are located.

Navigating Requests for Exemptions from State and Local Jurisdictions

Decisions at the state and local level regarding directives on closures and shelter in place are being made very quickly, with little notice. Provisions for requesting exemptions vary from jurisdiction to jurisdiction. Check out your state or local jurisdiction’s guidance, in the links below.

In the absence of a specific reference to floriculture, if the provisions allow for any of the following, there is a chance that e-commerce fulfillment and touch free deliveries could continue, but please consult with your attorney:

- Shipping, courier and delivery services
- Funeral and other death services
- Electronic shopping
- Crop agriculture

Some draft language for requesting or confirming an exemption:

_We have complied with the (elected official’s) order and closed our retail store and offices. Some staff are working from home, others have been laid off. In accordance with the order, shipping and delivery services (or fulfillment of funeral related orders) continue at our facility, executed by a small crew which is following strict social distancing practices and other mitigation measures defined by the CDC to protect workers._
