Design Room Funeral Pricing Guide

All our sympathy work is custom. Even if a photo is chosen out of a book, we have to order in specific varieties and whole bunches to get a certain color/type of flower. Sympathy work is time consuming and each piece is unique, and is priced accordingly. Labor percentage ranges from 30% (standard) to 60% for time consuming hand-work (rosary, wiring, etc.) If you don't know how to price hand-work, set a start time and charge \$1 per minute.

Casket Spray - \$400 is average (Range is $\pm$ \$250 for a saddle, for a "rose clump" start at \$100)

**When designing a casket spray, \$40 is the base retail price for Plastic base, foam and LL*

Urn Spray - \$350 is average (Range is \$175-\$600) Premium flowers or shapes, \$400+

**Lomey tray and Urn riser retail price - \$55 For basic greens add \$25*

Vased Arrangement - \$175 is average (Range is \$100-\$350 - anything less is small in stature)

** A good rule of thumb is that the container price should be roughly 10% of the total cost for vased and basket/container arrangements.*

Basket/Container Arrangement - \$250 is average
(Range is \$130-\$400 dependent on flower type/size)

Standing Spray - \$350 is average (Range is \$200-\$450 dependent on flower types/size)
